

# FOR THE LOVE OF TIMBER

As we all become more environmentally friendly, we're heading back to the basics when it comes to the materials we choose, and we've fallen in love with timber. From weatherboards to decks, feature areas to flooring, timber brings a relaxed feel to any home. But while it's beautiful to look at, timber needs protection to stay looking good – and Resene has a range of stains, clears and paints to help.

## TOUCH WOOD

Will the dark woods of yesteryear tickle your classic tastes, or will the light woods of modern living brighten up your life? The Resene Woodsman and Resene Colorwood wood stain ranges have everything you need to rejuvenate and protect timber inside and out, and help your timber look good and last longer. For natural look interiors opt for Resene Aquaclear Natural. Or use Resene Colorwood stain to rejuvenate or enhance the colour before clear finishing. View the Resene Woodcare stand at your local Resene ColorShop. [resene.co.nz/colorshops](http://resene.co.nz/colorshops)
