

# Strikingly Floored

When it comes to an office space, keeping things light and bright is pivotal, which is why we chose the Resene Half Copyrite paint to provide a fresh finish on the floors of our newly renovated Denizen HQ. Furthering the sense of vastness in the double-height loft space, the low sheen finish of Resene Uracryl prevents glare and provides the ideal blank canvas for a thoroughly contemporary fit-out. Juxtaposed against the deep staircase, achieved using Resene Masala, the overall effect is at once airy, modern and entirely up to date. If you're considering a white or light floor, we suggest you take the leap. [www.resene.co.nz](http://www.resene.co.nz)

## WHITES TO TRY

*This vibrant, yellow-based white is a no holds barred option for those who want a pristine backdrop.*

*A more neutral tone influenced by sober stone shades, this hue is a shrewd choice for subtle spaces.*

*This softly muted, complex beige is just the ticket if you're after a white that's not too austere.*

*A cooler tint that complements all colour schemes, this white of whites is your crispest option.*
