Ways with wood  
with Mark Rayner – 47

### You will need:

- Brush or broom
- Bucket
- Garden hose with clean running water
- Paintbrush
- Paint stirrer
- Resene Moss & Mould Killer
- Resene Timber and Deck Wash
- Resene Woodsman Wood Oil Stain tinted to Resene Warm Kwila
- Turpentine for washing brush

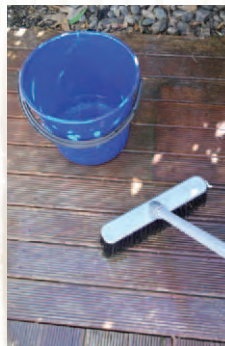

For a waterborne finish use Resene Woodsman Decking Stain.

**Step one**  
Thoroughly sweep the deck to remove dust and dirt.

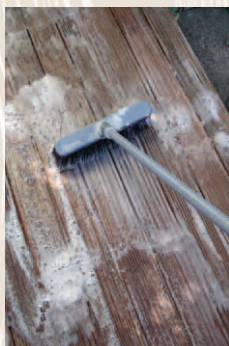

**Step two**  
Mix one part Resene Moss & Mould Killer with five parts clean water.

**Step three**  
Apply a generous amount of the diluted solution across the deck and scrub into the grooves using a brush or broom. Leave for 48 hours.

**Step four**  
Mix one part Resene Timber and Deck Wash with three parts water.

**Step five**  
Scrub the diluted solution across the deck, allowing the surface of the timber to remain wet for 10 to 15 minutes.

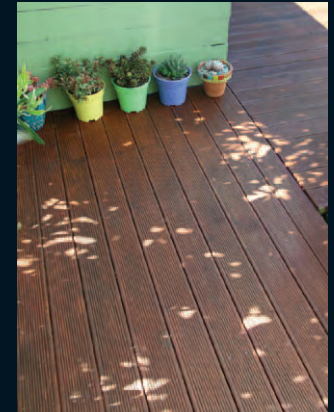

**Step six**  
Thoroughly rinse off the Resene Timber and Deck Wash with clean water. Allow the deck to dry.

**Step seven**  
Carefully stir the Resene Woodsman Wood Oil Stain with a flat stirrer.

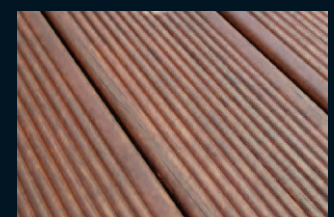

**Step eight**  
Apply two coats of Resene Woodsman Wood Oil Stain to the deck, running in the direction of the grain. Allow 24 hours for each coat to dry.

### To get the look:

Mark painted the background raised bed with Resene Lumbersider tinted to Resene Westwood.

### Other ideas:

For a darker finish use Resene Woodsman Wood Oil Stain tinted to Resene English Walnut.
