

Light & bright

Room styled by **Angie Masutti of Masutti & Masutti**

The ombre trend can be seen in everything from fashion and hair colour to interiors. This popular look is based on a gradual change from dark to light tones or from one shade to another. If you favour the bohemian style at your place, then an ombre décor will provide the perfect backdrop. This room fades from a pretty pistachio green to pale ivory, giving high-end hippy chic a fresh and modern twist. Use washable Resene SpaceCote Low Sheen for an easy care durable finish that will complement your ombre finish.

Colours of ombre wall, from the top: **Resene 'Quarter Alabaster'**, **Resene 'Quarter Carrara'**, **Resene 'Half Secrets'**, **Resene 'Secrets'**, floor **Resene 'Quarter Alabaster'** table painted in **Resene Metallic 'Spark'**.

All products from Masutti & Masutti except for curtain fabric and cushions, both from Icon Textiles; and house plant, from Sill Life.
