

### GET THE LOOK

Mark painted the outdoor table with Resene Enamacryl tinted to Resene Woodstock.

# DIY winter planter

Mark Rayner shows you how to transform a humble terracotta pot into a bright and cheerful planter for some potted winter colour.

## YOU WILL NEED:

- Damp cloth
- Good quality potting mix
- Low-tack masking tape
- Paintbrush
- Resene Terracotta sealer
- Resene testpots of Resene Alabaster and Resene Wild Thing
- Winter potted colour such as pansies or polyanthus
- Terracotta pot

## HERE'S ANOTHER COLOUR OPTION:

*For a rich gold effect, paint the pot with one coat of Resene Porsche and two coats of Resene Bullion.*

## STEP 1

Wipe off any dust from the terracotta pot with a damp cloth and allow to dry. If the pot has been outside for any length of time it may be necessary to treat it with Resene Moss and Mould killer.

For more on paints phone 0800 RESENE (0800 737 363) or visit your Resene ColorShop or [www.resene.co.nz](http://www.resene.co.nz)

## STEP 2

Apply one coat of Resene Terracotta sealer to the outside and underneath of the pot.

## STEP 3

Turn the pot over and apply one coat of Resene Terracotta sealer to the inside and top rim of the pot. Allow to dry.

## STEP 4

Apply one coat of Resene Alabaster to the outside and inner rim of the pot, as shown. Allow two hours to dry.

## STEP 5

Apply a second coat of Resene Alabaster to the outer rim and inner rim of the pot. Allow two hours to dry.

## STEP 6

Mask off the outer rim, as shown, using low-tack masking tape.

## STEP 7

Apply one coat of Resene Wild Thing to the outside of the pot, as shown. Allow two hours for the first coat to dry.

## STEP 8

Apply a second coat of Resene Wild Thing to the outside of the pot, as shown.

## STEP 9

Carefully remove the low-tack masking tape before the second coat has dried. Allow two hours to dry.

## STEP 10

Plant up with good quality potting mix and winter potted colour.
