

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging Resene kids art with Mark Rayner – 117

You will need:

- Cardboard toilet roll tube
- Paintbrushes
- Polystyrene egg (these are available from most craft shops)
- PVA glue
- Scissors
- Resene Art Action Quick Dry
- Resene testpots of Resene Alabaster, Resene Bonanza and Resene Nero

Step one

Carefully cut a 3cm section from the toilet roll tube and fix to the base of the polystyrene egg with PVA glue – you might need a grown up to help with this bit. Allow glue to dry.

Step two

Apply one coat of Resene Quick Dry to the egg and cardboard base. Allow one hour to dry.

Step three

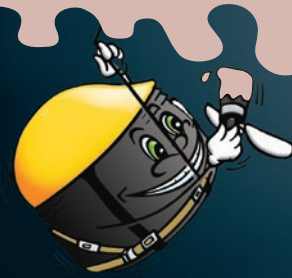

Apply two coats of Resene Bonanza, allowing two hours for each coat to dry.

Step four

Paint in face details with Resene Alabaster and Resene Nero. Allow two hours to dry. That's egg-tastic!

It's easy and fun to create this crazy egg man toy with a little bit of help from Resene.

Top tip:

You could also use the empty shell from a real boiled egg – just be careful not to crack it too much while scooping out the inside.

Here's another idea:

This crafty egg man was painted with Resene testpots of Resene All Black, Resene Bright Red and Resene Vista White.
