

Create this fabulous display stand for your favourite model animal with a little bit of help from Resene.

★ ★ ★ Difficulty level ★ easy ★★ moderate ★★★ challenging Resene kids art with Mark Rayner – 105

You will need:

- Artists' paintbrush
- Large matchbox
- Plastic model animal (we used a dinosaur)
- PVA glue
- Resene Art Action Quick Dry
- Resene testpots of Resene Dark Rum and Resene Kermit

Step one

Remove the inside section of the large matchbox, turn it upside down and paint it with one coat of Resene Art Action Quick Dry. Allow to dry.

Step two

Apply two coats of Resene Dark Rum to the top and sides, allowing two hours for each coat to dry.

Step three

Lightly dab a layer of Resene Kermit on the top, as shown, to create grass. Allow to dry.

Step four

Fix the plastic model animal onto the display stand with PVA glue and allow to dry. Awesome!

Top tip:

Plastic model animals are available at most discount shops.

Here's another idea:

Create a display stand for an amazing ape using Resene All Black and Resene Moroccan Spice.
