

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging

Resene kids art with Mark Rayner – 79

You will need:

- Drawing pins (x2)
- Paintbrushes (including artists' brush)
- Piece of string
- Polystyrene ball
- Resene Art Action Quick Dry
- Resene Testpots of Resene Alabaster, Resene Delta, Resene House White and Resene Zeus

Step one

Paint the polystyrene ball with one coat of Resene Quick Dry, allowing two hours to dry.

Step two

Paint the ball with one coat of Resene House White, allowing two hours to dry.

Step three

Paint in a few craters using Resene Delta.

Step four

Before the paint has dried, paint in some shadows with Resene Zeus and a few highlights with Resene Alabaster, allowing the paint to mix together, as shown. Allow to dry for two hours before hanging your planet using the string and drawing pins. Out of this world!

Top tip:

If you want your planet to have a shiny look, paint it with one coat of Resene Art Action Glaze (gloss) once the paint has dried.

Here's another idea:

This fiery hot planet was painted with Resene Pirate and Resene West Side.
