RESENE

P.V.A. PAINT

RESENE interior satin finish makes painting cheerful work — easy work. RESENE flows on leaving never a brush mark—dries in under an hour and produces a perfect finish that makes you proud of a job well done. Time well saved too — painting with RESENE is faster, easier. Thinning and brush cleaning is done with water — brushes last longer! In addition RESENE is the most inexpensive paint on the market!

WIN FRIENDS AND INFLUENCE CLIENTS.

Customers love the perfect finish of RESENE. Because it dries in only an hour and has no smell they love the convenience of painting with RESENE. You'll be asked again when you paint with RESENE Interior Satin finish, the paint that stays brighter longer.

RESENE EXTERIOR SEMI-GLOSS FINISH

Used extensively for major commercial buildings, this is a similar line to satin interior RESENE, based on the same durable resins. All the advantages of interior RESENE including its amazing sealing qualities of hair cracks, are available to Tradesmen for use on concrete buildings, asbestos cement board and brick, etc. Special colours can be ordered through local stockists.
