### INTERIOR SATIN FINISH

There's no better advertisement than a satisfied customer. When you use RESENE interior satin finish your client gets a perfect finish that stays bright and fresh for years and years. A washable surface from which dirty marks can be instantly whisked with a damp cloth.

### YOU'LL LIKE IT TOO!

RESENE is so easy to apply, will not harm the most expensive brushes. There is no smell, it is dry within the hour, and thinning, brush cleaning, etc., are done with water. What could be easier? And because it saves brushes and is the most inexpensive paint on the market, what could be more satisfying to both you and your customer? Paint the happy way — apply RESENE to interior surfaces with brush, roller or spray.

### RESENE EXTERIOR SEMI-GLOSS FINISH

Used extensively for main commercial buildings, this is a similar line to satin interior RESENE, based on the same durable resins. All the advantages of interior RESENE, including its amazing sealing qualities of hair cracks, are now available to tradesmen for use on concrete buildings, asbestos cement board and brick, etc.
